Service in Formwork + Shoring

Work safety

Secure and cost-effective formwork using work safety systems from PASCHAL

Only when the workplace is secure work can be quick, correct and efficient.

The three following safety features are always present in PASCHAL systems.

- A safe work place at the upper end of the formwork
- Safe work levels
- Safe ascents and descents

Lateral protection system

One lateral protection system, multiple possible applications – a key element is the railing post lateral protection, which can be used for a range of applications when combined with various connecting parts. Thanks to the flexible application of the lateral protection system, you will save on investment and storage costs.

- For a variety of applications (wall formwork, slab formwork, window and door openings, concrete slabs and exposed slab edges, upper wall edges)
- Quick, easy assembly
- According to safety standard EN 13374

Connecting parts for the PASCHAL formwork systems

LOGO.3

Modular

GE

Multip

Multip from PASCHAL fulfils the most stringent safety standards and in-creases formwork and concreting efficiency. Assembly is fast and easy. It is performed with the formwork element lying on the ground which means the risk of hazards is considerably reduced. After fixing Multip to the formwork, the system just requires unfolding.

- Time saving due to folding mechanism
- Safe workplaces allow quicker operation of accessory parts, like connection parts and ties

LOGO.3 Concreting platform

The concreting platform is a fast and economical way to set up a safe working area with a width of 1.10 m and a length of 2.40 m.

- Unfolded and installed quickly as complete part
- No repeated loss and repurchase of timber for boarding and railings
- Wide and safe work area
- Permissible surface load 1,50 kN/m²
